

Clever Kids Learning Hub

Prospectus

2018

*Clever Kids Learning Hub  
Reg No. 2016/154736/0*

Welcome to Clever Kids Learning Hub. We hope that learning and discovering will take on a whole new meaning when you join our family.

### **Clever Kids Learning Hub's vision**

Our vision is to provide *play-based learning* in an *enriched* and *stimulating* environment that caters for the *individuality* and *uniqueness* of each child.

### **What does this all mean?**

Basically, our learning hub believes that when we play we are happy and when we are happy we learn. The hub will provide the space, activities and support to enable you to be one of a kind.

During our time working overseas we gained a better understanding of how children learn best. We have realised the absolute necessity of using all the positive aspects of many varying curriculums. Our Hub is unique in its approach as it utilises these global concepts, which will provide an authentic learning experience. This authenticity will instil *confidence*, *respect* and *acceptance* of themselves and those around them.

As we are witnessing a huge revolution in the education sector all over the world at the moment, we believe it is our duty, as educators, to prepare the next generation for the demands of the competitive world that awaits them. We can see that the traditional method of teaching and school, as we know it, is very quickly becoming obsolete. Our children need to be taught to analyse, interpret and apply new information in such a way that shows initiative, critical thinking and innovation. The aim in the educational sector should not only be to pass your grade, but to have grown in your understanding of the topics you have learnt and to be able to apply this knowledge.

We have been using a new approach to teaching for the past year and are very excited to add Grade 1 into our programme for 2018. The curriculum we use is Love2learn and runs from Grade 1 to Grade 9. This curriculum is a pathway to the Cambridge iGCSE and AS Level examinations which is internationally recognised. Love2Learn is a diverse curriculum, written by Ivana Ries, co-owner of Love2Learn, and inspired by Charlotte Mason. It is a culmination of the best curriculums worldwide. We believe this approach fits our philosophy of holistic development and adds the dimensions of auditory, visual and kinaesthetic styles of teaching. Love2Learn is split into 2 different sections. **The Core Subjects** are Literature, Biology (animals & plants), Human Anatomy, Science, Technology, Touch Typing, Economics, SEAL (Social and Emotional Aspects of Learning), Art, Music and Physical Exercise. **The Discipline Subjects** are English Language, Mathematics and Afrikaans or French.

## **How does this all work?**

Clever Kids Learning Hub's philosophy is one of consciously changing the traditional way of educating children in South Africa. Our approach is not one of remembering facts, writing tests and getting full marks. It is more about enjoying the journey of learning and discovering. We are preparing our children for careers that do not exist yet, therefore, critical analysis, slowing down the process of learning, understanding concepts at their own individual pace and applying these skills, are imperative for their future. CKLH implements this strategy by ensuring 10 children to one teacher and grouping crucial gradings together to give children the time and space to achieve this.

## **Teacher to Child ratio for 2018**

### **CKLH Junior @ 1 Basson Rd**

- Grade 1 - 1 : 10
- Grade 1 & 2 - 1 : 10
- Grade 3 - 1 : 10
- Grade 4 & 5 - 1 : 10

### **CKLH Senior @ 21 Somerset Crescent**

- Grade 6 - 1 : 10
- Grade 7 & 8 - 1 : 10
- Grade 9 - 1 : 10
- Grade 10 - 1 : 10

Our Grade 10's will be embarking on their Senior journey with the iGCSE online programme through the Imperial International College. Clever Kids Learning Hub will provide the space, connectivity and educational management of each student. The students will take English Language, Mathematics and a second language - Afrikaans or French, and two other subjects from the list below.

Computer Science (not available at AS levels currently)

Biology

Chemistry (not available at AS levels currently)

Business Studies

Accounting

Economics

Geography

History

Physics

French (not available at AS levels currently)

By 2020 we will have our first Grade 12's who will then choose either the AS levels pathway or the American GED programme to complete their school leaving certificate. Both of these options grant a university entrance.

***Our Admission's process includes an interview with the child's parents, a few days of the child visiting CKLH for assessments for us to ascertain that the child will cope with the standard of the Cambridge curriculum, alongside all reports from previous schools, therapists, psychologists and psychiatrists to be submitted before a place can be offered. We are very passionate about keeping our promise of catering for each child individually so this initial process is extremely important for CKLH and the child applying.***

We look forward to witnessing your child thrive in our environment.

### **Clever Kids Learning Hub hours for 2018**

To cater for parking and traffic it is necessary to stagger our start and finish times. Please see the table below.
